PROFILE

Hello! My name is Gerardo Chapa. I'm Frontend developer with more than 5 years of experience working in web applications and projects using new technologies.

I have designed, developed and optimized different projects with a UI/UX focus and responsive design with better practices.

I have worked with libraries and frameworks related to the technologies I know, some examples are React-Redux, Styled Components, Webpack, Parcel, SASS, Tailwind CSS, Gatsby, Rest API, Node JS, Next JS, among others.
